Last Issue: No. 4—Main Drive Gear Oil Seal—"Consul 315" and "Capri"

THERMOSTAT STANDARDISATION

New "Anglia" Saloon and Estate Cars

The wax type thermostat, Part No. 116E-8575, fitted to the "Consul 315" since the introduction of the 1498 c.c. engine, is now fitted in production to "Anglia" cars and can be identified by the figures 190 marked on the underside of the bulb.

The current type thermostat is directly interchangeable with the former type, Part No. 105E-8575, and when existing stocks have been exhausted, the former type thermostat will be discontinued as a service item.

Thermostat Data—Part No. 116E-8575

Starts to open	85—90.3°C. (185—192°F.)
Fully open	98.9—101.7°C. (210—215°F.)

The foregoing is for Dealer Information Only. Without exception all gratis repairs and replacements are subject to the current Warranty and Policy procedure.
